

2019 Road Striping Bid

Elkhart County Highway Department

ADDENDUM NO. 1

July 17, 2019

The project bid documents and specifications have been modified or added as follows:

- 1) Updated the Linear and Point Pavement Markings map. The map has been updated to denote by linetype whether the linear markings are thermoplastic or paint.
- 2) Added "Color and Style Length Summary" Table for Thermoplastic Linear Pavement Markings.
- 3) Added "Color and Style Length Summary" Table for Water Based Paint Linear Pavement Markings.
- 4) Delete "Linear Summary by Type" table that was after the Chip & Seal Map.
- 5) Bid sheets (pages 60 and 61) has been changed to reflect the following:

There is a Lump Sum BASE Bid for Linear Pavement Markings and a Lump Sum Alternate 1 Bid for Point Pavement Markings. These two bids should be totaled. The project is to be awarded and paid as a lump sum based on the Total Bid. The bid sheet contains a per unit price for additional striping that may be needed by the owner. The bid award WILL NOT be based on the per foot price of additional striping needed, but only on the lump sum necessary to complete both the Base Bid and the Alternate 1 Bid of the striping indicated.
- 6) There will be no requirement for testing the retro-reflectivity of the paint. However, in places where complaints or concerns are raised, striping shall be tested by the owner and reported to the contractor per page 69 labeled "Testing Requirements".
- 7) The lump sum bid shall include all roads indicated on the map to be striped. The lineal feet indicated in the attached documents are for reference only. The information is from the County's asset management system and should be verified by the contractor in the field prior to bidding. Contractor is responsible for providing all labor, equipment, and materials to complete all of the striping as previously striped (length, width, color, etc.) on each road indicated on the map.
- 8) Point Pavement Markings include Stop Bars, Crosswalks, Crosshatch, Rumble Strips, Arrows, and Words. The Point Pavement Markings included in this project are shown on the Point Pavement Marking Aerials
- 9) The top aerial on Page 29 of 58 of the Point Pavement Markings aerials should say "County Road **31** North of County Road 38"

The approximate quantities for this contract are as shown on the Length Summary tables for the Linear Pavement Markings and the Point Pavement Markings tables for the Point Pavement Markings included on the attached pages. If extra work is necessary due to shifting of any of the items of construction or if additional work is called for in accordance with these specifications, such work shall be paid for on the basis of the following Additional Work Itemized Unit Prices. In addition to the above, the said unit prices shall also be the basis of payment to the Contractor for actual striping placed. The Additional Work Itemized Unit Prices must be completely filled out and submitted with the sealed bid or Elkhart County may at its discretion, reject the bid and declare the same invalid. An authorized signature of the Contractor is mandatory upon the bid sheets. The award of this contract will be based on the Total of the BASE Bid and the ALTERNATE 1 Bid. The lineal feet indicated in the attached documents are for reference only. The information is from the County's asset management system and should be verified by the contractor in the field prior to bidding.

This Bid shall be so prepared as to properly indicate:

- One (1) total lump sum for the Base Bid to furnish Linear Pavement Markings
- One (1) total lump sum for Alternate 1 Bid to furnish Point Pavement Markings

All furnished markings will include labor, materials, services and equipment to perform the work indicated in the bid materials (drawings, specifications and or as specified herein).

The Award of this project will be based on the "Total" bid price, being the sum total of the Base Bid and the Alternate 1 Bid. Please indicate this total below.

NOTE: Any Item may be withdrawn by Elkhart County at any time prior to the placement of the material.
